

# WE ARE THE **LETCHWORTH FAMILY SUPPORT TEAM**

Helping Letchworth  
families to **thrive**

## Who we are

We are a team of workers trained and experienced in supporting, children, young people and families. Our Family Support Workers have a wealth of knowledge regarding services and agencies working to support families.

## What we do

All families are different and there is no such thing as a "perfect family". Our job is not to come and judge you or decide what is in your family's best interests.

Our role is to meet with you to discuss the support that you and your family may need, and to agree the best way forward. We usually meet you at your home, although we may sometimes meet with you at a school or other venue.

## Contacting the team

If you'd like to discuss your concerns with a Family Support Worker, please ask your school to make a referral to us.

**Please note** – We only support families in Letchworth and children who are attending a Letchworth school.
